

The Victim of Ruthlessness

Master Eliya (Peyman Fattahi)'s
Resume and His Prior Activities

Master Eliya M; an Introduction

Payman Fattahi, known as Master Eliya M. (Elias or Elijah), is a great theoretician, lecturer, and spiritual - esoteric master¹. He is also the originator of “36 Methods of Sublime Thinking” and a great teacher of thinking methods. Fattahi has been the originator of more than 700 thinking formulas for solving different problems. He has almost 4000 pages of handwritten teaching and 58 doctrines in different titles.²

Elias has started sharing the result of his observation, thoughts and findings with a selected few number of students when he was 16. His teaching were on different aspects of esoteric sciences within gods words, specifically a meaning based interpretation of god's word with focus on its esoteric angles.

For several years, his theoretical and practical teachings were limited to his selected students. He started his first wave of public speeches in Tehran when he turned 23. His lectures proved extremely popular with students and the young while attracting great attention and praise from the literary, cultural and thought leaders of the country.

The speech sessions of Master Eliya were held with the aim of boosting up theology and Self-knowledge on the axes of god-tendency and boosting public faith and spirituality, and also on teaching the new practical methods of thinking. These speeches from the very beginning, were welcomed greatly by public especially youngsters, students, writers, intellectuals and scholars. Indeed, Master Eliya’s activities led to appearing a new generation of young writers and researchers and a community including several NGO’s and followers called “El-Yasin Community”.

El-Yasin Community consists of several institutions, publishing houses and magazines and hundreds of writers and researchers have been trained in it.

Professional Association of Thinkers and Probers (PATP), Professional Management Research Group (PMRG), Science of success, Nature Front Society, Yasin Association of Writers and Researchers, and Union for Human Rights and International Affairs of El-Yasin (UHRIAE) are some of the affiliated institutions of El-Yasin.

¹ The Marriage of Civilizations doctrine, The Rhythms doctrine, Fundamental Theory of Harmony, Creative Look, Active Observer and 360-degree Look are among Master Eliya’s (Peyman Fattahi) doctrines and fundamental theories. He is also the originator of “36 methods of sublime thinking” and more than seven hundred thinking formulas. Until now, 40 books have been prepared on Master Eliya’s teachings which have been blocked by the security system of Iran for years.

² Doctrines of Marriage of Civilizations, The Rhythms, Fundamental Theory of Harmony, Creative Looking, Active Observer and 360-degree Look are among Master Eliya’s (Payman Fattahi) doctrines and fundamental theories.

Also there have been several magazines such as “Motivators”, “Sublime Thinking”, “Art of Living“, and “Esoteric Knowledge” which most of them have been stopped working by “Department against religions and Religious Minorities” (DARRM) within recent years.

However El-Yasin Community has started its cultural activities without being dependant on any political groups or parties there has been a huge amount of problems and conflicts against this spiritual movement and its leader Payman Fattahi. The conflicts have been originated from DARRM which is the executive office of Cultural Taliban of Iran.

In this book we will mention Master Elias’ *Curriculum Vitae* and a list of his previous activities so that the readers can judge easily how unfair he has been a victim of ruthlessness by Iranian Religious Extremists.

The axis of the speeches was turning around "Harmonious Treatments and Divine Cure" which explained Master Eliya's viewpoints on treatment and cure.

It is worth saying that these conventions were held for a short time but because of the prejudiced obstructionists, Master's students were forced to stop holding such seminars.

c) Book-reading Conventions

These conventions were held by the publishers on Master Eliya's recommendation. The aim was promoting book reading culture and review, criticize and scrutinizing the successful books on different subjects.

These contentions which were generally held in cultural places were greatly welcomed by people. But these conventions were also stopped because the obstructions and pressure made by the prejudiced officials.

I. Ongoing Research programs

One of the valuable works of Master Eliya during all these years was activating many young people in researches and studies.

With proposing new attractive research subjects, showing different angles and offering new viewpoints of the subjects which previously seemed repetitive acquainted many young students and researches and even those who were totally unacquainted of such fields with the world of research, probe and deliberation.

The least results of these researches, which can be proved by hundreds of people experiences, was becoming purposeful and determined and dynamism of sleepy minds.

Most of the researches were in the fields of religions, social problems, spirituality and parapsychology .They were done by cooperation of people who were totally unacquainted of these fields. In fact with an effective intelligent method, research was an instrument to make thousands of youngsters acquainted with the true significance of the fundamentals, to liven up minds, to make a movement that can be the source of many positive changes in future.

This movement was a very strong start to retrieve and revive of the assets that have been deteriorated in routine life and it was an effort not made by any other people or institutions in years.

What comes next is a small part of the list of researches done or leaded by Master Eliya with the cooperation of different research teams which their members were all his students and friends.

Some of the researches are at their last phases to be ready and some others have been ready to published, but because of the disagreements and negative treatments of DARRM³ and its affiliated institutes like The Ministry of Culture and Islamic Guidance (Ershad)⁴ are now faced with many problems to be published.

It is worth mentioning that what is included here is only a small part of the researches done and is just limited to last few years, since the list of all the researches are too long to be mentioned here.
